LEAR PROPERTY DATA

This document is to be read in conjunction with LAND EVALUATION AND AREA REVIEW FOR AGRICULTURE (LEAR) - Volume 1

The City of Ottawa maintains and updates detailed property information at the individual parcel scale. The review of the City's LEAR continues to use the property parcel as the Evaluation Unit (EU) and basis for analysis.

Information was compiled for each property parcel and analysed using Geographic Information System (GIS) software that is linked to the City's property information system. In this system each parcel of land is assigned a Property Identifier Number (PIN). Since this identifier may change when properties are divided each mapped parcel was also assigned a unique LEAR Identification Number (LIN).

In order to simplify the LEAR analysis and to locate parcels in the City, the rural area was also divided into discrete sectors shown in the adjacent Map. These areas are generally bounded by major watercourses and 400 series highways which act as geographic boundaries. The LEAR Identification Number (LIN) also incorporates the sector number in order to assist in the location of parcels.
