

Active Transportation Fund

The Government of Canada's [Active Transportation Fund](#) (ATF) is investing \$400 million over five years to make travel by active transportation easier, safer, more convenient and more enjoyable.

Through the Planning and Design Projects stream, the City of Ottawa will assess the feasibility of various active transportation improvements, including new multi-use pathways and accessible crossings at several locations throughout the city, with the aim of making the network more accessible for residents and visitors. These projects will help the City of Ottawa promote healthy lifestyles and physical activity within the community by offering residents more convenient options to walk, bike and roll to their destinations safely.

The Government of Canada is investing \$350,000 in seven planning projects through the ATF, with the City of Ottawa contributing \$150,000.

Unique ID	Project Name	Total Project Costs*	Funding Recognition
Planning and Design Projects stream			
PTFP-1174	Confederation Heights Roadway Reconfiguration Study, Ottawa, Ontario	\$150,000	Government of Canada investment of \$50,000
