

Green and Inclusive Community Buildings

The [Green and Inclusive Community Buildings](#) (GICB) Program will provide \$1.5 billion over five years to support green and accessible retrofits, repairs or upgrades of existing public community buildings and the construction of new publicly-accessible community buildings that serve high-needs, underserved communities across Canada.

The City of Ottawa has been approved for \$630,000 from the Government of Canada through the GICB program for the deep retrofit of the Hintonburg Community Centre. The building will become net zero ready from improvements to the building envelope and new heating, cooling and ventilation systems.

The GICB program is open from 2022 to 2027.
