

The Government of Canada's [Investing in Canada Infrastructure Program](#) provides funding to communities through the Investing in Canada Plan. These programs, delivered by Infrastructure Canada, provide long-term funding to help municipalities build strong, dynamic and inclusive communities and ensure access to modern, reliable services that improve quality of life for residents.

- Investing in Canada Infrastructure Program - COVID-19 Resilience Stream (ICIP COVID-19):** \$19 million approved funding to the City of Ottawa for retrofits, repairs and upgrades for municipal buildings, measures to support physical distancing, and projects to support active transportation such as parks, pathways and bike lanes.
- Investing in Canada Infrastructure Program - Community Culture and Recreation Stream (ICIP CCR):** \$43 million approved funding to the City of Ottawa for 7 projects to improve playgrounds, pools, arenas, community centres, and parks across the city.
- Investing in Canada Infrastructure Program - Long-Term Care Stream (ICIP LTC):** \$1.2 million approved funding to the City of Ottawa for 4 retrofitting projects at two LTC homes to improve heating, ventilation and HVAC systems.
- Investing in Canada Infrastructure Program – Public Transit Infrastructure Stream (ICIP PTIS):** \$8.6 million approved funding to the City of Ottawa for the [Chief William Commanda Bridge multi-use pathway and rehabilitation project](#). The new multi-use pathway, on the existing inactive bridge, will improve active transportation between the City of Ottawa and the City of Gatineau.
