

O-Train Trillium Line Project – Indigenous Consultation Summary 2015-2019

Submitted: January 22, 2019

2016 Environmental Assessment – Indigenous Consultation Summary

EA Consultation and Commitments:

- At the outset of the 2016 EA process, in consultation with MOECC and the Ontario Ministry of Aboriginal Affairs (MAA), the following organizations were identified as having a potential interest in the project:
 - Algonquin Consultation office; and,
 - Ottawa Region Métis Council.
- Both organizations were contacted during pre-consultation.
- Based the consultations, as outlined in table 1 below, commitments to future work through detail design and construction and implementation were made, including:
 - Ongoing consultation between the City of Ottawa and the Algonquins of Ontario and Ottawa Region Métis Council (with copy to the Métis Nation of Ontario) through all future design phases of the project; and,
 - Prior to construction, the Contractor will engage an archaeologist to provide basic training to assist workers in identifying aboriginal cultural resources, to ensure undocumented archaeological resources are not overlooked during construction.

Table 1 – Concerns and Mitigations Identified During the 2016 EA Process

INDIGENOUS GROUP	CONCERNS RAISED	CITY MITIGATION
<i>Algonquins of Ontario</i>	Thorough archaeological work. Study team committed to providing all archaeological reports done as part of the study.	Ongoing consultation with the Algonquins of Ontario regarding the scope and results of Archaeological Assessments.
	Interest in exploring opportunities to incorporate linkages to their history such as interpretive pathways, identifying trees and importance of access to water.	Public Art Program: To reach out to indigenous communities as part of this program, Stage 2 will coordinate an Indigenous Liaison Officer art consultant to hold workshops aimed at helping to build the capacity of local artists and artisans. This would benefit them in submissions for the calls for art, as well as beyond the Stage 2 LRT call for art. Also, Stage 2 has agreed to build upon the previous work done in the

Submitted: January 22, 2019

		<p>Stage 1 LRT work, by including the wayfinding symbol developed in Stage 1 for Pimisi station and including it in all of the stations for the 3 extensions of the rail system. This Liaison Officer will also undertake general outreach.</p> <p>Furthermore, all anticipated effects on traditional uses or cultural heritage resources will be identified and described as part of the EA process and subsequent detail design, and will be communicated to any potentially affected Indigenous peoples and communities as they are identified.</p>
	<p>The project area is located within Algonquin Traditional Territory. The Algonquins of Ontario (AOO) and the Governments of Canada and Ontario are working together to resolve the historic Algonquin Aboriginal rights claim through a negotiated settlement. If successful the agreement reached will take the form of a modern-day Treaty with Aboriginal and Treaty Rights protected under Section 35 of the Constitution Act, 1982."</p>	<p>The project area is located within Algonquin Traditional Territory. Based on additional study, the EA concluded that Indigenous persons are not currently using any of the lands and resources within the study boundaries for traditional purposes such as hunting, fishing, or harvesting. The proposed Settlement Lands to be transferred to the Algonquins of Ontario do not fall within the Trillium Line Study Area.</p>
<p><i>Kitigan Zibi Anishinabeg</i></p>	<p>Proximity to natural waterways.</p>	<p>All anticipated effects on traditional uses or cultural heritage resources will be identified and described as part of the EA process and subsequent detail design, and will be communicated to any potentially affected Indigenous peoples and communities as they are identified.</p>

Submitted: January 22, 2019

	Potential impacts on the health of waterways during the course of the light rail transit extensions.	All anticipated effects on traditional uses or cultural heritage resources will be identified and described as part of the EA process and subsequent detail design, and will be communicated to any potentially affected Indigenous peoples and communities as they are identified.
	Belief that water is sacred and essential for all life.	All anticipated effects on traditional uses or cultural heritage resources will be identified and described as part of the EA process and subsequent detail design, and will be communicated to any potentially affected Indigenous peoples and communities as they are identified.
<i>Quebec Métis</i>	No further interest in the study(ies).	N/A

Additional Mitigation: Identifying additional economic opportunities for continued capacity building and engagement in consultation with the Indigenous Communities and businesses/workers.

List of Emails/Correspondences Provided (in attachment):

- January 5, 2015 email to the Algonquins of Ontario advising of the start of the EA pre-consultation period and invitation to the January 13 and 15th, 2015 Public Open Houses;
- September 28, 2015 email to the Algonquins of Ontario advising of the start of the EA Study;
- January 6-22, 2016 string of emails to the Algonquins of Ontario seeking comments on the EA prior to the end of the public comment period. Comments were provided on January 21, 2016, advising:
 - There may be further comments that the AOO will be provided on the final draft, but for now please use this more appropriate regarding the land claim:
 - "The project area is located within Algonquin Traditional Territory. The Algonquins of Ontario (AOO) and the Governments of Canada and Ontario are working together to resolve the historic Algonquin Aboriginal rights claim through a negotiated settlement. If successful the agreement reached will take the form of a modern-day

Treaty with Aboriginal and Treaty Rights protected under Section 35 of the Constitution Act, 1982"

- January 22, 2016 email to the Algonquins of Ontario advising of the completion of the EA Study;
- February 1, 2016 email string cancelling the EA Working Group meeting with the Algonquins of Ontario; and,
- June 23, 2016 email to the Algonquins of Ontario advising of the June 29, 2015 FEDCO meeting for the EA and Functional Design Report.

2016-2017 – Indigenous Consultation Summary

Consultation/Meeting Summary:

Date	Meeting	Attendees	Purpose/Overview
April 13th, 2016	Planning and Environmental Working Group	Members: L. Cloutier (LC); R. Zohr (RZ); Kirby Whiteduck (KW); Cliff Bastien Jr.(CB); Robert Craftchick (RC); AOO Staff: Janet Stavinga (JS); Christine Luckasavitch (CL); Ethan Hunter (EH); City attendees: Dennis Gratton (DG); Marc Magierowicz (MM)	Overview of the 3 extensions of the Stage 2 LRT Trillium Line Extensions and status of the Environmental Assessments <i>Presentation attached</i>

O-Train Trillium Line Project – Indigenous Consultation Summary 2015-2019

Submitted: January 22, 2019

Meeting Notes:

Action items resulting from the meeting:

1. Stage 1 Update

- AOO to participate in Groundbreaking Ceremony for Confederation Line's OLRT to be held at Pimisi Station in May 2016 (TBD)
- Rosemary Pitfield @ City of Ottawa, to contact AOO as soon as possible

2. Stage 2 Expansion

a. Construction

- City of Ottawa to provide Confederation Line Stage 2 archaeological information completed to date
- City of Ottawa Archaeological Potential Map to be shared with the AOO
- AOO to share Algonquin Archaeology Terms of Reference (once finalized)
- Further conversations required re: archaeological significance along the Confederation Line corridor
- AOO to confirm we have received all Environmental Assessments for Stage 2 (East & South, West is forthcoming)
- AOO to communicate any concerns with EAs
- City of Ottawa to develop AOO Consultation Plan for Stage 2

b. Procurement Opportunities

- Economic Development Opportunities for Algonquin Businesses – explore the potential of hosting a workshop/forum between the City of Ottawa and Algonquin businesses

3. Algonquin Wayfinding Symbol

- City of Ottawa to share draft/framework Algonquin Wayfinding Policy
- AOO to draft formal correspondence offering support of Algonquin Wayfinding Symbol being integrated within the Confederation Line at every station with further caveat to discuss additional locations for implementation throughout the City of Ottawa, the Rideau Canal and beyond

O-Train Trillium Line Project – Indigenous Consultation Summary 2015-2019

Submitted: January 22, 2019

Date	Meeting	Attendees	Purpose/Overview
July 9th, 2016	Nation Gathering at Mattawa	Stage 1 and 2 LRT Project staff	Staff brought display boards showing the 3 extensions of the Stage 2 LRT and answered questions <i>No formal presentation</i> <i>No minutes taken</i>

Date	Meeting	Attendees	Purpose/Overview
September 8th, 2016	Heritage and Culture Working Group	Members: L. Cloutier (LC); R. Zohr (RZ); AOO Staff: Janet Stavinga (JS); Christine Luckasavitch (CL); Ethan Hunter (EH); City attendees: Dennis Gratton (DG); Marc Magierowicz (MM)	Overview of the 3 extensions of the Stage 2 LRT Trillium Line Extensions and status of the Environmental Assessments <i>Presentation attached</i>

Meeting Notes:

- DG presented status of Stage 1 art and wayfinding symbol.
- MM - presented an overview of the 3 extensions of the Stage 2 LRT O-Train Extensions and status of the Environmental Assessments.
- JS raised concerns about the EA's. She feels they were not adequately consulted during the EA processes. MM indicated that there is a consultation record to confirm sent materials and MM agreed to send and follow-up with a phone call to ensure AOO office has them.

O-Train Trillium Line Project – Indigenous Consultation Summary 2015-2019

Submitted: January 22, 2019

- JS mentioned that Steve Cripps provided a letter indicating that the City was not going to be providing interactive multi-media information at all the stations or wayfinding signs to provide a narrative for people. JS is not pleased and will bring this up in her conversation with Steve Kanellakos at the City. *[MM sent the letter from Steve Cripps as a follow-up]*.
- Other key issues raised:
 - Booth Street Bridge:
 - JS would like to see some Algonquin imagery/symbols placed on the bridge or light standards (metal inserts, flag-type standards, etc...). She noted that we have been given federal money for the redesign of the bridge for cycling and that some of that money should be spent to help to provide Algonquin art as part of that project to – since the bridge is part of Pimisi Station. She would be talking to Steve Kanellakos at the City within the next two weeks about this in a meeting with him. MM agreed to take this message back to the office for her – outlining that the scope of the Booth Street project is mainly for cycling improvements, not specifically for bridge improvements and/or art/design. JS and LC noted that they are not very impressed with the Design of the bridge at all. It seems very industrial and doesn't represent a design standard of what is to be a focal point of the National Capital.
 - Environmental Consultations:
 - JS would like the three EAs provided to the AOO and Federal land requirement property maps. MM indicated that we are working through our property requirements and do not have a finalized list yet and we don't have a specific set date in which that will be complete.
 - Archaeology:
 - EH asked for shape files of the Archaeological potential mapping from the City of Ottawa. JS asked about the date of the map, as they had not previously agreed with the mapping from 1999. JS indicated that they want to review the Archaeological Study (Stage 1 archaeological sites assessment/study) and definitely be involved in the Stage 2 Archaeological Site Review/Studies that are required. *[MM provided requested information as follow-up]*
Economic – JS requested that we have a workshop similar to Stage 1 LRT Project for Algonquin business/workers. MM agreed to bring back the request and we hope to talk more about this. JS offered to provide information on successful workshops held in the past by CN and other groups.
 - Engagement Strategy:
 - MM indicated the Stage 2 office will provide a draft strategy for review, based off the previous strategy done through the Rail Implementation Office.

O-Train Trillium Line Project – Indigenous Consultation Summary 2015-2019

Submitted: January 22, 2019

Meeting Notes:

- DG Presented on the status of Stage 1 and the way finding symbol design.
 - JS noted that she had talked to City of Ottawa Tourism about expand the use of the wayfinding symbol & asked that the City coordinate efforts because the AOO wants to reduce duplication in efforts. No movement has been made on this. JS noted she will follow-up with others since this request has not moved forward.
 - EH requested a copy of the symbol for the office. DG noted that that the patent was owned by the City and there is a copyright for it.
 - JS indicated that it was produced for the AOO, the protocol was established by them and it was approved by the AOO, so it should belong to the AOO. DG noted that the protocol needed to be approved by the Heritage and Cultural working group. JS asked to use the wayfinding prototype. DG agreed to leave it at the office for them and would collect at a later date.
- JD provided a presentation on the Art Program. Indications are that all projects at Pimisi station are proceeding well.
 - JS asked to link the art to the AOO website in time for the summer solstice. They would like the City or a 3rd party to engage and develop a communication piece to tell the story of the art. JD will ask Simon Brascoupe for a progress report and to share the story for the Painted Paddles work. JS indicated the importance of sharing this information particularly with the potential loss of any pieces. DG indicated that tender and budget are underway. Further information would be provided at the next meeting.
- MM presented on the stage 2 extension of the LRT update. Specifically the EA approvals, and the Bayshore to Moodie Expansion EA Amendment. In this, the LMSF sites were shown along with the short-list of 3 that have been developed. Outlined that the Engagement Strategy was being finalize and will be speaking further on this item and looking to include the wayfinding symbol in all Stage 2 stations. Also, outlined the update on archaeological investigations and engagement (all stage 2 investigation sites shown) and the public art plan which would include capacity building for local artists and artisans.
 - JS outlined that in Stage 1 there was a fund to facilitate capacity building and engage someone to do this. She would like to see these funds provided again. MM indicated that there is opportunity to look at doing this as part of Stage 2. JS outlined the need to help build capacity in the Algonquin Nation. LC said that Bancroft is looking to have an art show. JS suggested a conversation in Ottawa with the Director of Stage 2. MM agreed to coordinate.
- AT Presented the Stage 3 background prior to the EA progression for alignments and potential corridors.

Meeting Notes:

- City of Ottawa presented 3 LRT projects at various stages in their processes
 - Stage 1 – Dennis Gratton presented update on project construction, including art installations.
 - Stage 2 – Marc Magierowicz presented update on the project planning, including recent extensions, projects changes, EAs, approvals, art workshops and archaeology
 - Kanata LRT Extension EA – Angela Taylor presented on EA options for the LRT extension to Kanata status and options being considered.

O-Train Trillium Line Project – Indigenous Consultation Summary 2015-2019

Submitted: January 22, 2019

- Stage 2 discussions:
 - Public Art 101 Indigenous Workshops – well received by the group and very pleased with Simon Brascoupe as lead for this project.
 - Archaeological Investigations – AOO (EH) indicated they would like to have better notice for gathering their representatives as they have a capacity issue with resources, emails and availability issues, including may other sites they are sending reps to.
 - Directional Signage – MM asked about education program opportunity and display prior to station placement. No response initially from the group.
 - Economic Opportunities – asked about the development of the list of Algonquin businesses and what opportunities that they would like to build into the future.
 - MA – mentioned that they have a draft protocol/process developed with CLC for RFP & RFQ that they would share. This would be to share with businesses for expressions of interest. SD is the lead at AOO and they would share this process with us.
 - Future Meetings - MM asked about scheduling more regular visits with meetings and planning with their calendars. AOO (MA) indicated they would share the future meeting dates and calendar.
