

## Design sketch template

### Please include:

- Location of in-ground projects and their distance from your house and property lines
- For rain gardens, identify the overall size as well as an inlet and an outlet for rainwater
- Indicate the slope (and direction) of the property
- Property boundaries
- Location of your home
- Locations of utilities (from ON1Call)
- Directly connected impervious areas that will be managed
- Location of redirected downspout drainage areas and their distance from your house and nearest property line
