April Break 2021

April Break Virtual Camps

Recreation eGuide

Table of contents
Morning ................................................................. 2
Afternoon ............................................................... 3
Welcome!

For the first time, the City of Ottawa is offering virtual April Break workshops that can be mixed and matched. By choosing different morning and afternoon sessions your child(ren) can explore more interests – from dance to visual arts to robotics – all while staying home!

There’s no requirement to commit to a full day, the half-day programs can be taken alone. This guide splits the programs by the times they are offered. For any technical and registration questions, visit the website at ottawa.ca/virtualprograms.

You may also want to check out the variety of virtual spring programs being offered. There are over 100 programs for all ages, ranging from one-session workshops to eight-session courses. From culinary skills to fitness to arts, there is something for everyone. You’ll find the spring guide at ottawa.ca/virtualprograms.

Enjoy a safe and happy April Break.

Morning

Schedules and fees may be subject to change. Fees include HST.

Each barcode is linked from the PDF directly to the page specific to the barcode in our registration system where you can view additional details. Starting from the registration date, you can add each class to your cart for easy registration!

Instructional programs are advertised in the language in which they are offered.

Drawing and Painting – Virtual
Explore your imagination through drawing and painting!
Let your creativity flow as you use different techniques and materials to learn advanced art methods and explore new skills. Requires a personal electronic device with internet connection. Supply kits will be available for pickup before the start of classes.

613-580-2424 ext. 32047
8-12 years Mon.-Fri. 9-11 am
Apr 12-16 1592791

Camp-STEM-LEGO® Adventures – Virtual
Learn LEGO® building techniques as you build several mechanical Technic™ projects. Develop your own Technic™ project in real life. Learn to use LEGO® Studio 2.0 by building a variety of virtual engineering and architecture projects. Build a virtual LEGO® Minecraft™ project. Learn how to create online instructions for your own Technic™ build, and how to make your virtual LEGO® projects look real. Virtually build a Mindstorms® EV3 or NXT robot. Learn to code and simulate robot sounds and movements online. Perform maze navigation as well as object and colour detection challenges.

Learn about electronic concepts, components and circuits, and breadboard in a safe virtual environment. In collaboration with “the LEGO® guy” Ian Dudley of Orange STEM Education www.orangestem.ca. You will need a PC or Mac, laptop or desktop computer (not Chromebook) to run Studio 2.0 and to connect to Zoom. More information provided at registration.

613-580-2424 ext. 32047
7-8 years Mon.-Fri. 9:30-11:30 am
Apr 12-16 1592794

Camp-Raspberry Pi-Microbit Robots – Virtual
Build a robot that can draw using microbit kits! Assemble your robot and learn to write simple programs to teach your robot how to use a pen, draw abstract shapes, and 2D animations. Requires a personal electronic device with internet connection. Supply kits will be available for pickup before the start of classes.
