

MEMO / NOTE DE SERVICE

To/Destinataire	Registrar, Alcohol and Gaming Commission of Ontario	AGCO License File/N° de fichier: 1146477
From/Expéditeur	Benjamin Cool-Fergus Planner Zoning & Interpretation Unit	
Subject/Objet	Cannabis Retail Store Authorization Application	Date: 1 April 2021

A Cannabis Retail Store Authorization Application in the City of Ottawa has been issued for Public Notice by the Alcohol and Gaming Commission of Ontario. Per the *Cannabis License Act*, a municipality or any other interested party has 15 calendar days to reply based on matters of public interest.

The Provincial legislation provides that the AGCO may not issue a retail store authorization for applications deemed not to be in the “public interest”, which has been defined in s. 10 of Regulation [468/18](#) as meaning:

1. protecting public health and safety,
2. protecting youth and restricting their access to cannabis, and
3. preventing illicit activities in relation to cannabis.

Pursuant to [Council Direction](#) from December 13, 2018, City of Ottawa staff have reviewed the proposed application with respect to matters pertaining to the public interest. The Municipal Response is attached.

If you require any clarification or have any questions please do not hesitate to contact me directly.

Sincerely,

Benjamin Cool-Fergus

**City of Ottawa Municipal Response to Cannabis Retail Store Authorization
to Registrar, Alcohol and Gaming Commission of Ontario**

Business Name:	Shinybud Cannabis Company
Proposed Address:	2702 Alta Vista Drive
AGCO File Number:	1146477

Pursuant to [Council Direction](#) from December 13, 2018, City of Ottawa staff have reviewed the proposed application and make the following observations pertaining to the public interest.

Key Principle 1: Prevention of Clustering

A 150 metre distance separation from other Licensed Cannabis Stores is in the public interest, as the Board of Health has noted concerns that excessive clustering and geographic concentration of cannabis retail outlets may encourage undesirable health outcomes.		Applicable?	
a.	Location is within 150 metres of the property boundary of a Cannabis Retail Store approved by the Alcohol and Gaming Commission	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>

Key Principle 2: Separation from Sensitive Sites

A 150 metre distance separation from sensitive uses including schools and facilities analogous to schools is in the public interest as these provide a community function or are locations where youth congregate. Separation may prevent the normalization of cannabis use.		Applicable?	
a.	Location is within 150 metres of the property boundary of a Public School or known location of a Private School, as defined by the Education Act	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
b.	Location is within 150 metres separation distance from a publicly-owned and/or operated recreational facility	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
c.	Location is within 150 metres separation distance from a publicly-owned and/or operated community centre	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
d.	Location is within 150 metres separation distance from a publicly-owned and/or operated library	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
e.	Location is within 150 metres separation distance from an active-use public park	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>

Key Principle 3: Where Retail is a Permitted/Principal Use

Cannabis retail stores should be restricted to zones of a commercial focus where “retail store” is a principal use in the Zoning By-law. Locations where retail is secondary or accessory to another use are not appropriate, including locations in a residential context.		Applicable?	
a.	Location is in a zone where "retail store" is not permitted as a principal use in the Zoning By-law	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
b.	Location is in a residential zone that allows retail, such as LC (local commercial) and small-c (neighbourhood commercial) designated zones.	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
c.	Location is in a zone that has site-specific conditions and/or exceptions on "retail store" such that a stand-alone cannabis retail store as defined by the Cannabis License Act would not meet the provincial operating requirements.	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
d.	Location is in a zone where "retail store" is considered a legal non-conforming use.	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>

Key Principle 4: Additional Local Issues to be Noted

AGCO is requested to have regard to any additional local issues not captured by the above, and to take into consideration location concerns from other service providers where a cannabis retail store is proposed within 150m separation of those establishments.
Staff Comments
Staff note that the proposed establishment is located in a Arterial Mainstreet (AM8) zone, which permits Retail Store as a use.
Ward Councillor Comments
<p>While I recognize this location meets the AGCO requirements of being more than 150m from school property, I would urge the AGCO to consider denying this application based on special consideration of the neighbouring area.</p> <p>The proposed location at 2702 Alta Vista Drive is located very close to three schools whose students visit this mall daily during off-hours and lunch times, Ridgemont High School and St. Patrick’s High School are located within less than half a kilometer from the proposed location. Charles H. Hulse Public School is closer still, and there is also a daycare facility located within Charles H. Hulse.</p> <p>Further to this, there are also adult students who regularly interact with underage students within the high school system here. While it is completely legal for adults to visit and purchase cannabis products, this location would make it easier to bring cannabis products inside a school which serves a population who should not have easy access to these products.</p>

Should the AGCO approve this location, I highly recommend the following considerations be made for this retail cannabis location;

- Implement security for the store front and surrounding location, especially during school hours.
- Consider establishing hours of operation which ensure this location is closed during school hours.
- Ensure a close scrutiny of clientele at the door to ensure those below 19 are not admitted to the store.
- Recommend that the owner establish an ongoing working relationship with staff at all schools to monitor activities and work together to mitigate any concerns.
