Elgin Street is to be renewed as a Complete Street with the following characteristics:

- Wide sidewalks and pedestrian clear zone
- Shorter crosswalks and raised intersections, and narrow travel lanes to enhance the pedestrian experience and slow vehicular traffic
- Opportunities for outdoor patio space; and
- Flexible streetspace providing for potential seating or additional walking space
- Ample bicycle parking
- Slower vehicle speeds that are conducive to cycling in a shared lane environment
- Super sharrow markings as a visual cue to encourage single file travelling
- Priority given to transit vehicles to stop in the travel lane
- Additional transit shelters
- Bus stop area amenities
- Queue jumps
- One travel lane in each direction, north of Argyle Street to Lisgar Street
- One or two travel lanes in each direction south of Argyle Avenue
- Left-turn lanes at key intersections
- Flexible street space providing the choice for on-street parking
- Appropriate vehicle capacity to continue to function as an Arterial Road
- Additional street trees, bike racks, waste bins, benches
- Bulb-outs at intersections
- Public realm opportunity areas at intersections
- Opportunities for public art
