This map illustrates the 2016 Goulbourn Wetland mapping by Dillon Consulting on behalf of the City of Ottawa. The mapping was completed as a requirement of the Flewellyn Special Study Area (3.2.5) of the Ottawa Official Plan. The map shows the 2008 Provincially Significant Wetland (PSW) Boundaries, as previously identified by the Ontario Ministry of Natural Resources and Forestry (MNRF). It shows the new and confirmed wetlands identified by Dillon Consulting in 2016, and approved by the MNRF. It shows areas of former wetland that have been removed from the PSW. It also shows two altered wetland areas currently subject to a court restoration order, which remain part of the PSW. The map is provided for information purposes and should not be relied upon for planning applications.
