

# **Transportation Services Department**

## **O-Train Construction**

### **2018 Budget Briefing Note**

#### **Description**

The Transportation Services Department brings together all services related to the mobility of the City, integrating the planning, implementation, operations and delivery of all modes of transportation. Every service and project delivered by the department impacts how people commute – whether by train, bus, car, bicycle, walking or a combination of these – both now and in years to come.

The role of the O-Train Construction office is to lead the O-Train Confederation Line Light Rail Transit (LRT) project. This project represents the implementation of the light rail elements of Phase 1 of the City's Transportation Master Plan (TMP). The O-Train Confederation Line will provide rapid and high quality transit service from Tunney's Pasture Station in the west to Blair Station in the east. The O-Train Construction office administers the contract with Rideau Transit Group, the consortium selected to design-build-finance-maintain the Confederation Line project.

#### **Programs/Services Offered**

- Ensure technical compliance with Project Agreement requirements including review of contractor design submissions, construction activities, vehicle requirements, systems, testing and commissioning
- Manage project scope, cost and schedule
- Identify land and property requirements
- Coordinate planning works to support Official Plan (OP) land use goals, Transportation Master Plan (TMP) goals, and arts and culture

- Coordinate urban design and support business development opportunities
- Manage risk, scope, change and dispute resolution
