Project update: Elgin Street renewal

The City of Ottawa is undertaking the design and construction for the renewal of [Elgin Street](#) from Gloucester Street to Isabella Street. It also includes some underground work on Waverley Street from Elgin Street to Metcalfe Street, through Jack Purcell Park.

Pedestrian access to businesses will remain open at all times and people are encouraged to continue to support Elgin area businesses during construction.

The project limits are in the [Key Map PDF](#).

Project update

Bell Canada construction update

Bell Canada has been rehabilitating their underground infrastructure since March 2018. This infrastructure has reached the end of its lifecycle and requires repair before the City begins its

City of Ottawa @ottawacity · Oct 17

Starting October 18, @hydroottawa will be working along the east side of Elgin Street between Gilmour Street and Somerset Street. On-street parking on both sides of Elgin will be prohibited within these blocks. #OttCity #OttTraffic
