Identified Natural Heritage System Features Overlay

Natural Heritage System Overlay (West)

NOTE: This Schedule forms part of the Official Plan of the City of Ottawa and must be read in conjunction with the text. It specifies the natural heritage system, including significant natural features, within natural heritage and flood hazard areas. It is intended to guide decision-making for development and land use planning. The schedule is updated periodically and is subject to change. Developers and developers should consult the current official plan to determine the latest information.

The following features are designated on other schedules in this Plan, and are shown on this schedule for information purposes only.

- Floodplain / Plaine inondable
- Village / Village
- Greenbelt / Centre de verdure
- Urban Boundary / Limite de la zone urbaine

See Schedule 2: see Annex A
See Schedule A: see Annex A
See Schedule 6: see Annex A
