Summer Virtual Camps

Welcome! For the first time, the City of Ottawa is offering virtual summer camp workshops that can be mixed and matched. By choosing different morning and afternoon sessions your child(ren) can explore more interests – from dance to visual arts to robotics – all while staying home! There's no requirement to commit to a full day, the half-day programs can be taken alone. This guide splits the programs by the times they are offered. For any technical and registration questions, or to see the variety of other programs being offered, visit the website at ottawa.ca/virtualprograms.

Schedules and fees may be subject to change.
Fees include HST.

Each barcode is linked from the PDF directly to the page specific to the barcode in our registration system where you can view additional details. Starting from the registration date, you can add each class to your cart for easy registration!

Instructional programs are advertised in the language in which they are offered.

Morning

Children

Animate This! – Virtual

The world of animation comes to life! Use Blender animation software, create 3D models, create 2D animations, explore stop-motion animation techniques, and learn video editing. You will need a PC or Mac, laptop or desktop computer (not a Chromebook) to run Blender and connect to Zoom, and you will need to download and install Blender prior to the first class.

Summer Virtual Camps

LEGO® STEM Adventures – Virtual

Build real and virtual LEGO projects at home using the new LEGO Technic set provided and your computer. Learn LEGO building techniques as you construct several mechanical Technic projects. Develop your own Technic project. Learn to use LEGO Studio 2.0, a LEGO CAD program, as you build a variety of virtual engineering and architecture projects. Build a virtual LEGO Minecraft project. Create online instructions for your own Technic build. Render your virtual LEGO projects to look incredibly real. Virtually build a Mindstorms® EV3 or NXT robot. Learn to code and simulate robot sounds and movements online. Perform maze navigation as well as object and colour detection challenges. Learn about electronic concepts, components and circuits, and breadboard in a safe virtual environment.

In collaboration with “the LEGO guy,” Ian Dudley of Orange STEM Education, orangestem.ca. You will need a PC or Mac, laptop or desktop computer (not a Chromebook) to run Studio 2.0 and connect to Zoom, and you will need to download and install Studio 2.0 prior to the first class. More information provided upon registration. Includes your own LEGO® Technic™ set - available for pickup before the start of classes.
